

Call for papers: Special Issue on **Quantum Plasmonics**

Editor: Christos Tserkezis, Technical University of Denmark

A special issue on Quantum Plasmonics in the *International Journal of Modern Physics B* is now open for submissions.

The issue will consider submissions focusing on topics such as:

- *Quantum-mechanical calculations for plasmonic nanostructures*
- *Nonclassical approaches to plasmonics*
- *Weak and strong coupling between quantum emitters and plasmons*
- *Quantum tunnelling in plasmonic junctions*
- *Plexcitonics*

Manuscript submission deadline: **31 December 2016**

Manuscripts should be submitted via the Editorial Manager, under the section “Quantum Plasmonics”

<http://www.editorialmanager.com/ijmpb/default.aspx>

Manuscript guidelines can be found at

<http://www.worldscientific.com/page/ijmpb/submission-guidelines>
